

Dr. Adham A. Azim

Micro-surgical endodontics

From planning to execution

December 5-6, 2024
Paris

Course objectives

This 2-full day course is designed to provide participants with the ability to learn all about micro-endodontic surgery. Starting from decision making, selecting, and organizing the appropriate armamentarium to make the procedure quick and smooth, all the way to treatment planning for a predictable treatment outcome. Participants will be able to perform a surgery on a 3D surgical model using surgical operating microscope and proper armamentarium. They will incise and reflect simulated gingiva, make osteotomy, apicoectomy, retro-preparation, retro-filling, and suturing. They will also apply GTR techniques during their hands-on training needed in the management of through & through defects.

Day 1

Apical Surgery

by Adham A. Azim (translation to French by Dr. Sarah Attal Stym Popper)

Day 2

Guided Tissue Regeneration (GTR)

by Adham A. Azim (translation to French by Dr. Sarah Attal Stym Popper)

Day 1

Apical Surgery

December 5, 2024 ⌘ Duration: 7h

 **Paris**

Course program

9:00 am - 10:00 am

Rationale for apical surgery

10:00 am - 11:00 am

Armamentarium and positioning

11:00 am - 11:15 am

Short Break

11:15 am - 1:00 pm

Managing the root

1:00 pm - 2:00 pm

Lunch Break

2:00 pm - 5:00 pm

Hands-on typodont

Flap, osteotomy, root section, retro-preparation, retro-filling

Day 2

Guided Tissue Regeneration (GTR)

December 6, 2024 ⌘ Duration: 7h

 **Paris**

Course program

9:00 am - 11:00 am

Guidelines to GTR (lecture)

11:00 am - 11:15 am

Short Break

11:15 am - 1:00 pm

Soft tissue management

1:00 pm - 2:00 pm

Lunch Break

2:00 pm - 5:00 pm

Hands-on typodont

Grafting and membrane placement in through & through lesions

Hands-on suturing

Evaluation methods of your training

Monitoring of execution and evaluation of results

- Pre-session quiz
- Digital attendance records
- En-of-training quiz
- Post-training evaluation questionnaire
- Certificate of completion / attendance certificate for the training program
- Post-training evaluation questionnaire, 3 months after the session

Technical and pedagogical resources

- Welcoming learners in a dedicated training room
- Projected training support materials
- Theoretical presentations
- Practice exchange through the presentation of clinical cases
- In-class quiz
- Online availability of support documents after the training

Registration

First/Last name _____ Cellphone _____
 Mail _____ RPPS N° _____
